

hall A6 - stand 6111

27th Fakuma 2020

13.-17. OCTOBER

FRIEDRICHSHAFEN

ROLF SCHLICHT GmbH
Technologie für die Gummi-,
Kunststoff- und Kabelindustrie

We are presenting our current products and innovations at the **Fakuma 2020 in Friedrichshafen!** Inform yourself on our booth **hall A6 – stand 6111** about our product novelties.

DUST-FREE POWDERING

RSC NG HS series (ROLF SCHLICHT COATING – NEXT GENERATION)

For a dust-free powdering of cables, wires, hoses, profiles and tapes in high-speed processes - with 3 - 4 electrostatic guns and up to 2000 m/min speed.

RSC-NG Serie (ROLF SCHLICHT COATING – NEXT GENERATION)

For the technologically advanced powdering of cables, wires, hoses, profiles and tapes in the cable and rubber industry in proven quality - with 1 - 2 electrostatic guns or as pneumatic version with 1 - 4 nozzles - speed up to 500 m/min

TALKATOR NG series – WORLD FIRSTS

TALKATOR NG SPS

Cost-effective powdering for simple processes in the rubber and cable industry - with patented **RS AirStreamTechnology** (1 - 2 guns) - NEW – COST-EFFECTIVE - EFFICIENT

TALKATOR NG DR

For powdering of small parts and granules for medium to high demands on powdering quality - with 1 - 2 nozzles - NEW - SIMPLE - EFFICIENT

Downstream equipment in the extrusion

RS MULTICUT Rotary cutter - MC-40 NG, MC-80 NG, MC-100 NG

For use in the plastics and rubber sector for cutting profiles, hoses and solid profiles in extrusion.

RS MULTICUT Orbital cutter – OC-30 NG, OC-70 NG, OC-30 NG HS, OC-70 NG HS

Orbital cutter for semi-hard and hard tubes - the new development among the cutting solutions - also available in high-speed versions.

We would be pleased to present our new machine generations of these series **and other world firsts** to you personally at the trade fair.

Ask us also about service, spare parts, tests, maintenance, retrofitting and overhaul.
