

RSC NG – New HMI / PLC control 2020

Due to the CORONA situation, we were unable to present many of our innovations in 2020 at trade fairs.

Nevertheless, today we present our new HMI / PLC control 2020 for the RSC NG series (state of the art powdering machines) in this way.

- Completely revised control software
- Significantly higher user-friendliness
- Simplified programming
- Options for ProfiNET, ProfiBUS, W-LAN connections
- Real-time capable; Integration of fieldbus systems possible
- Recipe management possible
- All interfaces for line integration can optionally also be programmed analog
- Industry 4.0 capable
- 9" touchscreen operator panel
