## **FAKUMA 2020 postponed to October 12 - 16, 2021**

The decision has been made: Together with the exhibitor advisory board, the trade fair organizer has decided to postpone the 27th Fakuma until 2021.

From the point of view of the organizer, the Fakuma 2020 could have taken place. The general conditions related to corona were adapted in the form of hygiene and safety concepts, so that a safe implementation would have been possible. However, the trade fair organizer and the exhibitor advisory board have decided to **postpone the Fakuma 2020 to October 12 - 16, 2021**.

This decision is based on reason and a sense of responsibility. The advanced time also speaks for a postponement. Due to the current uncertainties, it is time to look pragmatically and confidently into the year 2021.

We want to continue the success of previous Fakuma trade fairs. That is why we are now planning for next year. The commitment of everyone involved now applies to the intensive preparation of the next trade fair highlight in the plastics industry. The aim is to present our products and solutions appropriately and to prepare the Fakuma 2021 again as an industry highlight.

Unfortunately, this year everything is different than before. We hope that you and us will hopefully come through this special time well and strengthened - above all healthy! We look forward to presenting our innovative products at **Fakuma 2021**.

Of course, we are happy to answer your questions about our **RS MULTICUT** cutting machines or **RS POWDERTECH** powder coating machines at any time. Call +49 4533 6063-100 or write an email to [info@schlicht-gmbh.de](mailto:info@schlicht-gmbh.de).
